ISSUE 1 - 2024

A GREAT START TO THE YEAR

With all the challenges the company endured last year, in the spirit of Mbuyelo, we rise again like a sphinx in the desert and take on another year with vigour.

At the first executives meeting of the year, the Chairman and CEO of Mbuyelo Group, Mr. Rirhandzu Owner Siweya, gave this new year a theme: “Reclaiming former glory”, and it is clear that the team is on board as they push on for more milestones to reach daily.

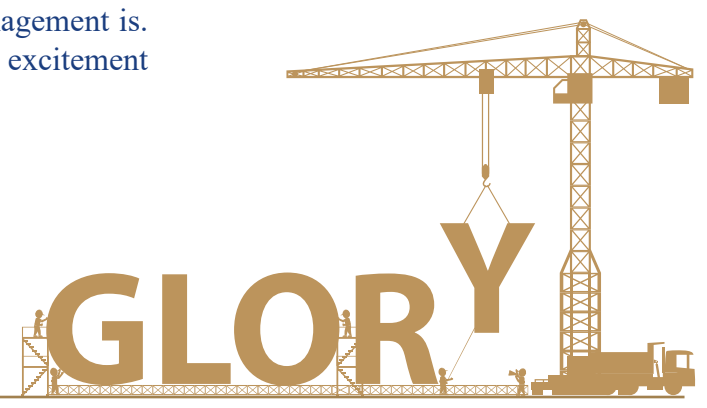

There is more to come of this year as departments passionately fill their 2024 calendars with events. As you should have seen by now, the Company has embarked on what is expected to be a successful whistleblowing campaign. This is to align all individuals to our Mbuyelo values and push toward a cleaner, more successful empire. “Vula Swihundla” (loosely translated as “tell secrets”) is the slogan of the whistleblowing project, and it promises to protect all who jump on board to make Mbuyelo safe and successful for all.

We come a long way as Mbuyelo and boast a total of 5 operations, being:

We encourage the spirit of sharing all milestones, events and achievements so we may all be knowledgeable and thrilled about Mbuyelo’s growth as Management is. Remember, as a pebble thrown in the water creates ripples, so does excitement spread; it is contagious.

*We wish you all a successful
and productive 2024!*

Manungu keeps up the momentum

Festive Tournament

The mine's generous donation of soccer and netball kits has made a significant impact on the annual tournament held in the surrounding farms. This contribution is a testament to the mine's commitment to fostering a strong and healthy community.

WATER Provision

In the community of Wolvenfontein farm, the mine has taken a step towards alleviating the water crisis in “Kwa Josie” by installing two additional JoJo water tanks. These tanks will serve as an extra water storage facility for the community. Their installation is a positive step towards ensuring that the community has a reliable water supply.

Grocery Hampers

Manungu donated 322 food parcels to vulnerable families in surrounding farms and NPOs, spreading joy and happiness during the festive season of 2023.

BACK TO SCHOOL initiative

Delpark Primary and Fundiswa Combined School started off the year gleefully, as the mine launched fantastic educational initiatives. Manungu donated new school shoes, bags, and stationery to both schools.

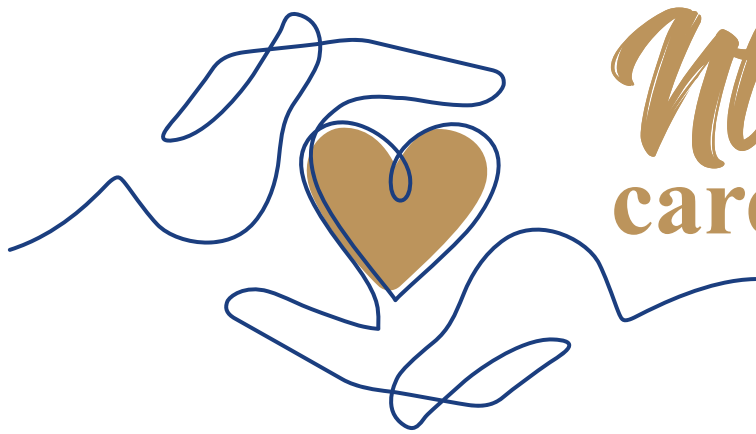

Victor Khanye circuit *Matric Top Achievers Awards*

The mine and Victor Khanye Local Municipality proudly collaborate every year to celebrate exceptional learners, hardworking educators, and top-achieving schools, recognizing their outstanding successes.

The consistency of the mine towards leaving a shining mark in the community, is something worth applauding. Manungu keeps making Mbuyelo proud, no doubt about it!

Ntimeni cares for its People

Long Service celebrations

At our colliery, we believe in acknowledging and appreciating the commitment of all our hardworking employees, who happen to have also been the heartbeat of our organization for countless years. The Long Service Award serves as a testament to their unwavering dedication to Mbuyelo as a whole in fact, and it showcases their invaluable contributions.

Empowering our Community through Skills Development

As Ntimeni Colliery, we are delighted to have provided a comprehensive 1-month Skills Development Program. This program focuses on operating heavy machinery, such as Front End Loaders (FEL) and Articulated Dump Trucks (ADT). The initiative's aim was to empower the local community and enable them to thrive in an assortment of industries.

Internship Programs

Last year, we had the privilege of welcoming Lance Sibuyi to the Ntimeni Colliery family, as our engineering intern. He brings a crisp perspective, passion and refreshing innovation to our team.

Maboko Colliery keeps to its word

Maboko has officially handed over its Local Economic Development (LED) Project. This was the construction of “Bhekumuzi Masango Drive” in Belfast. This project's worth came up to a generous five million rand. We are beyond pleased to have left a mark in this community. We would also like to take this opportunity to thank all who have contributed to the success of the mine. You are a beaming reflection of our Mbuyelo slogan,

ku tiyimisela, ku humelela!

Vumunhu Foundation, for the people!

The 6th of March 2024 was not only one of the hottest days we experienced, but one of the most rewarding by far.

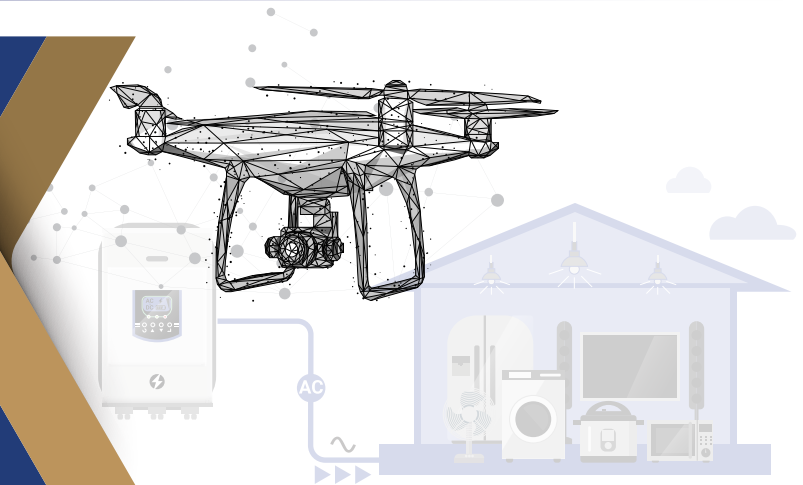

Vumunhu Foundation NPC (“Vumunhu”), a leg of the Mbuyelo Group of companies has a sole purpose of giving back to disadvantaged communities. “My colleague, Lesego Ngwane and I were on a mission to put smiles on the faces of Honoka Combined School’s learners, teachers and community alike; so off to Giyani, Limpopo we went,” excitedly commented Moleboheng Moletsane, Head of Communications for Mbuyelo Group.

Vumunhu had received a request for a donation to honour the teachers and learners of the school by their principal, Tintswalo Mhlanga. Despite being dealt a humble hand, the learners of Honoka hit an astronomical hundred percent (100%) pass rate for their matriculants of 2023- third year in a row! Our Chairman and CEO, Mr. Rirhandzu Owner Siweya fell off his seat in awe, and shared with us, his wish to make these individuals’ dreams come true- even if just for a day.

We didn’t go empty-handed, besides the R30 000 donated to the school for the event, we brought with us 10 SAMSUNG TABLETS with Departmental specifications, for use by Honoka learners. We then treated the top three learners to a generous hamper worth several of hundred rands each. They were delighted!

Khashani, the nurturer

On the 1st of December 2023 Khashani embarked on a journey to upskill local community members by embarking on a training programme on Drone Piloting.

The programme has kicked in with a total number of 6 people from Kriel. This will run for a period of 4 months.

Then, on the 5th of December 2023, Khashani Colliery donated two (2) invertors to Cosmos Children's Haven, a children's home for orphans in Kriel.

The home has a whopping eighty (80) children aging from new-born babies, to 19 year olds. Out of these, some children are coming from abused families, while others were abandoned by their parents. The owner, Mrs. Lettie Schwarz, was thrilled with the invertors. This gift goes a long way, not having to worry about cash to buy diesel for their previous generator during load-shedding, "We really appreciate this gesture," she wrote.
